

## **PUBBLICAZIONI RECENTI**

A quantitative method for the analysis of glycated and glutathionylated hemoglobin by matrix-assisted laser desorption ionization-time of flight mass spectrometry

*Biroccio A., Urbani A., Massoud R., Di Ilio C., Sacchetta P., Bernardini S., Cortese C., Fedrerici G.,*  
Analytical Biochemistry 336 (2005) 279-288 ISSN: 0003-2697

Bone mineral density Improvement after lung volume reduction surgery for sever emphysema

*Mineo TC., Ambrogi V., Mineo D., Fabbri A., Fabbrini E., Massoud R.,*  
Chest (2005) 127: 1960-1966 ISSN: 0012-3692

Intravesical electromotive administration of oxybutynin: from laboratoty to clinica field

*Di Stasi SM, Giannantoni A, Navarra P, Massoud R, Capelli G, Dolci S, Vespasiani G, Stephen RL.*  
Urodinamica 2005, 15: 74-81

Simultaneous determination of plasmatic phytosterols and cholesterol precursors using gas chromatography-mass spectrometry (GC-MS) with selective ion monitoring (SIM)

*Ahmida HS, Bertucci P, Franzo L., Massoud R., Cortese. C., Lala A., Federici G.*  
J Chromatogr B Analyt Technol Biomed Life Sci. 2006 Sep 14;842(1):43-7. ISSN 1570-0232

Cognitive and psychiatric effects of topiramate monotherapy i migraine trestment: an open Study

*Romigi A., Cervellino A., Marciani M.G.,Izzi F., Massoud R., Corona M., Torelli F., Zannino S., Uasone E., Placidi F.*  
European Journal of neurology (2008),15: 190-195 ISSN: 1351-5101

Tumor type M2pyruvate-kinase levels in pleural fluid vs plasma in cancer patient: a further toll to define the need for invasive procedures

*Elia S., Massoud R., Guggino G., Cristino B., Cortese C. De Massimi A. R., Zenobi R.*  
European Journal Cardio-Thoracic Surgery (2008), 33: 723-727 ISSN: 1010-7940

Allelic frequencies of 3' Ig heavy chain locus enhancer HS1,2-A associated with Ig levels in patients with schizophrenia and healthy control subjects.

*D. Frezza , V. Giambra , C. Mattioli , K. Piccoli , R. Massoud, A. Siracusano , M. Di Giannantonio , B. K. Birshtein , I. A. Rubino*

International Journal of Immunopathology and Pharmacology (2009).

Erythrocyte glutathione transferase: a new biomarker in chronic kidney diseases which correlates with plasma homocysteine

*Mariarita Dessì<sup>1</sup> • Annalisa Noce<sup>1</sup> • Kutayba F. Dawood<sup>1</sup> • Francesco Galli • Massimo Taccone-Gallucci • Raffaele Fabrini • Alessio Bocedi • Renato Massoud • Giorgio Fucci • Anna Pastore • Simone Manca di Villahermosa • Giorgio Federici • Giorgio Ricci*

Amino Acids, 2011, in press.

Glucocorticoids stimulate leptin production in anorexia nervosa

*Jacoangeli F<sup>~</sup>, Cuzzolaro M<sup>⊠</sup>, Quattrino S<sup>⊠</sup>, Staar Mezzasalma F<sup>~</sup>, Fiori R<sup>"</sup>, De Martino M.U<sup>~</sup>, A<sup>~</sup> Pierantozzi A<sup>°</sup>, Masala S<sup>"</sup>, Bollea M.R<sup>~</sup>, Massoud R<sup>°</sup>, Fabbri*
